LILLIE'S LOCK OPENED IN ONE MINUTE!

NEW YORK, September 2, 1864.

F. TILLMAN, Esq., 318 Battery street, Bet. Commercial and Clay, San Francisco.

DEAR SIR: WE NOTICE AN ADVERTISEment in your daily papers respecting the "security" of the "Lillie" lock. We are aware that you well understand this lock, and, of course, will not allow yourself to be annoyed by such representations. We have just sent for one of our men at the factory, and he, in our presence, opened one of Lillie's best safe locks, after it had been locked and the combination turned on,

By one Blow of the Hammer

Against the knob on the outside, and thereby breaking the cast iron bolt on the inside.

The whole time occupied in opening the lock was about ONE MINUTE. We send you this lock that your friends may not be deceived by false representations, etc. Respectfully, etc.,

A. E. TILTON,
WM. McFARLAND.

Any parties desirous of seeing the above mentioned lock, its insecurity and easy mode of opening the same, can call at

318 Battery street, San Francisco.

GLOUCESTER, March 26, 1864.

Messrs. TILTON & McFARLAND, Safe Manufacturers, Boston, Mass.

Gentlemen: From representations made by Mr. Lillie, I was induced to purchase one of his

So-called "Fire Proof Safes,"

On the 18th of February last, a fire occurred in our block which destroyed a number of buildings, and our own with the rest. We trusted our books, papers and all in the safe. After the fire the so-called "safe" was taken from the ruins, and on opening it we found that

Everything was Destroyed.

We send you the safe, with what is left of the papers, and you will see that not one of them is legible or strong enough to sustain its own weight. Having the curiosity to know how our neighbors fared in this fire, we noticed McKenrie & Hardy just opening their safe (TILTON & McFARLAND'S make), and its contents were found to be

In Perfect Condition.

This led us to further investigation, and we found to our astonishment that from the large amount of combustible material in Messrs. McK. & H.'s cellar—such as lard, pork, etc.—their safe was subjected to a much greater heat than that of our own, we being in the clothing business and had but little in the cellar. There was another of Lillie's safes here subjected to the same fire, faring, however, no better than our own.

Very respectfully,
Your obedient servants,
[Signed:] GEO. L. CHESBRO & CO.

LETTER FROM STAR CITY.

[FROM AN OCCASIONAL CORRESPONDENT]

STAR CITY, Nev. April 10th, 1865.

EDITOR ENQUIRER:—I have just received three copies of the ENQUIRER, the first I have received for two years; I have noted contents, even to advertisements, the deaths and births, &c. I am much pleased with the yet thrifty appearance of your paper, the general tone of the editorials, as well as the communications, one of the latter, written by "Index," published in your issue of the 1st of April, entitled "our last resting place," made a forcible impression upon my mind. It is well written, and was no doubt well intended. It simply advocates the structure of a fence around the grave-yard. Now, unless there has been a large amount of work done since I left the Flat upon the graveyard, building a fence would be no more than half what should be done. The logs should be cleared off and all the old trees, liable to blow over and crush a fence, if built, should be felled, and everything cleared away that mars the beauty and solemnity of the place. I have a fraternal and a sacred interest in the appearance of the resting place for the earthy habitations of departed spirits at Dutch Flat. And I sincerely hope that the agitation of the project to make the Dutch Flat cemetery what every kindred place should be in a civilized community, will not cease until the necessary work be well accomplished. I have been on this coast over seven years and have never yet ventured to tell my old mother, who is now three score years and ten, that her first born and most dearly cherished son had been buried in a place open all this while to the ravages of the brute creation. I cannot join "Index" however in his estimate of the good people of Dutch Flat, when he convicts them of a *want* of the "*finer feelings of our nature*" as a people "*lost to all the delicate sensibilities of the heart*," and that they "are in fact, *but men and women in name.*" While I was at the Flat I tried on two different occasions to have the people fence and clear off the graveyard, but nothing was done. I want to see the work go on, and if I cannot procure a more convenient and pleasant mode of traveling I will *walk* 300 miles to work out my assessment. Just let the work start and see if I don't come with either an ax, pick or shovel, you can depend on me, I will be on the ground.

"Index" writes with too much severity, when he desires us to question ourselves "as to the *purity of affection or the truth of friendship* that allow the terrible waste to exist." I like that person whose heart swells with respect toward the *earthly remains* of departed spirits. I like to sit by the grave and ponder in sad remembrance over the good deeds of him or her whose tenement lies beneath me. It is sad to think, that, in the busy hum of worldly life, there should be *any* neglectful to, or forgetful of the beauties of the silent tomb. But oh! how grief overspreads grief until, like a pyramid of granite, it weighs down the heart, as we reflect that *that confidence*, with which we have freely intrusted the dearest secrets of our lives to those who have often pledged eternal friendship, has at last been betrayed, and that he or she whom we have relied upon with such implicit faith (from length of absence or some other cause) have forgotten their promises and trusts and finally proved false and recreant, desiring rather to increase one's enemies instead of his friends. In the first instance we but show reprehensible negligence toward that *dust* which has been returned to its parent dust, but in the last we strike and deeply wound the spirit which yet inhabits its earthly tenement; and this *act* of injuring the living (whether through willful treachery or careless indifference,) I consider an offspring of the most ignoble defect of the human heart. The first is simply an *omission* of duty, which does not of itself absolutely infer that we have "ceased to remember the departed," or that we have so soon "forgotten the virtues, kindly dispositions and native nobleness of the soul that we have recently worshipped." The last strikes a dagger to the living heart yet inhabited by an immortal spirit. And when we reflect how prone we all are to *injure* instead of *aid* each other; how devoid of true gentleness of character, we fail to comprehend the beauty of "Index's" communication. Lest we become uncharitable, we should never condemn others (figuratively speaking) for being less than six feet in stature. Bearing this in mind, let us hear from "Index" again with no invidious comparisons between the citizens of Dutch Flat and the inhabitants of the Feejee Islands, Hindostan and the Upper Nile. He has truly said that in order to *do* there must be *action* and I hope there will be action in the premises, and a concert of action, one and all, old and young, old church and new church, in fact all those who are liable at any day to find a last terrestrial home in the Dutch Flat cemetery. "Presto, change." While I write the booming of two of Vulcan's stithies at either end of the town and a massive Star Spangled Banner, stretching entirely across Main street and floating grandly upon the stiff breeze from the mountain, announces the patriotic rejoicing of America's loyal citizens, over the reported surrender of Gen. Lee and his army to the bold and daring Grant. Last week we had a lively demonstration over the capture of Richmond.

Everybody (as a general rule) was elevated, and toasts and speech-making, cheers and songs were the order of the day. "Union Dixie" and "We'll rally round the flag, boys," were awakened from their slumbering repose to again haunt the troubled conscience of some billious Southron. It is very difficult now to find a man who voted for McClellan. We, however, now and then find an incorrigible to laugh at; such an one is Gen. Patrick Henry Harris, native of Kentucky, recently from Oroville, and once a member of the California Legislature. He is a great hand for pets, and has fallen deeply in love with the *Worm* of the *Still*, a very poisonous reptile, out here in this desert air, he becomes daily intoxicated with its fascinations, and while we were shouting for joy over the surrender of Richmond, he braced himself against a door post and screeched out "Wave Richmond, and thy banners wave, and charge with all thy chivalry." This created a general laugh, and reminded me of the dying command of Marmion to Chester and Lord Stanley, with this difference: Marmion's command was reasonable, while that of Gen. Harris was too late, for the chivalry had already found their "last ditch" and made their last charge.

Oh, I feel this a proud day to all those who have stood steadfast by the Government from the first, and never faltered when our political horizon was dark and obscure. This will be glory enough for me the remainder of my life, and I close with three cheers for the Monroe doctrine, and three groans for the frog-eating Frenchmen.

By the way, we are having war out here. Lieut. Wolverton and Capt. Wells are hunting Indians, and have killed about twenty, so far as known reliably. Old Winnemucca, with those who are considered peaceable, are down on the Big Meadows, near Humboldt Lake. Wolverton, with his men, and a number of citizens have been following the main body of the Indians for five days, during which time we have had no news from them. If he catches the red scoundrels, they will suffer. The first rumor that they had murdered and burned up men, women and children is false. Only two men have been burned up in Paradise Valley, and there is no proof that the Indians did that. Out on the Honey Lake road two men are missing, and one partially burned up has been found and buried. The Indians are stealing large bands of cattle, and I think are led by white men. The authorities at Carson, promptly sent the Humboldt Rangers, one hundred Minie rifles and accoutrements, and the citizen soldiers are out, as an auxiliary force, helping to scour the mountains, and I think the *poor* Indian will have his *mind tutored* this time.

DESERETTA.

ANDREW JOHNSON.

The following sketch of the "Life of Andrew Johnson," the successor to President Lincoln, is going the rounds of the Press. It is probably compiled from one of the electioneering documents used during the Presidential campaign, and must be taken with a grain of allowance:

Our new President was born in Raleigh, N. C., December 29, 1808. When he was four years of age he lost his father, who died from the effects of exertions to save a friend from drowning. At the age of ten he was apprenticed to a tailor in his native city, with whom he served seven years.—His mother was unable to afford him any educational advantages, and he never attended school a day in his life. While learning his trade, however, he resolved to make an effort to educate himself. His anxiety to be able to read was particularly excited by an incident which is worthy of mention. A gentleman of Raleigh was in the habit of going into the tailor's shop and reading while the apprentice and journeymen were at work. He was an excellent reader, and his favorite book was a volume of speeches, principally of British statesmen. Johnson became interested, and his first ambition was to equal him as a reader, and become familiar with those speeches. He took up the alphabet without an instructor; but by applying to the journeymen with whom he worked, he obtained a little assistance. Having acquired a knowledge of the letters, he applied for the loan of the book which he had so often heard read. The owner made him a present of it, and gave him some instruction on the use of letters in the formation of words. Thus his first exercises in spelling were in that book. By perseverance he soon learned to read, and the hours which he devoted to his education were at night, after working ten or twelve hours at his trade. Having completed his apprenticeship in the autumn of 1824, he went to Laurens Court House, S. C., where he worked as a journeyman for nearly two years. While there he became engaged to be married, but the match was broken off by the violent opposition of the girl's mother and friends, the ground of objection being Mr. Johnson's youth and pecuniary means. In May, 1826, he returned to Raleigh, where he procured journey-work, and remained until September. He then set out to seek his fortune in the West, carrying with him his mother, who was dependent upon him for support. He stopped at Greenville, Tenn., and commenced work as a journeyman. He remained there about twelve months, married, and soon afterwards went still further westward, but failing to find a suitable place to settle, he returned to Greenville and commenced business. Up to this time his education was limited to reading, as he had never had an opportunity of learning to write or cypher, but under the instructions of his wife he learned these and the other branches. The only time, however, he could devote to them was in the dead of night.

The first office which he ever held was that of Alderman of the village, to which he was elected in 1828. He was re-elected to the same position in 1829, and again in 1830. In that year he was chosen Mayor, which position he held for three years. In 1835 he was elected to the Legislature. In the session of that year he took decided ground against a scheme of internal improvements, which he contended would not only prove a failure, but entail upon the State a burdensome debt. The measure was popular, however, and at the next election (1837) he was defeated. He became a candidate in 1839. By this time many of the evils he had predicted from the internal improvement policy which he had opposed four years previous were fully demonstrated, and he was elected by a large majority. In 1840 he served as Presidential elector for the State at large on the Democratic ticket. He canvassed a large portion of the State, meeting several of the leading Whig orators. In 1841 he was elected to the State Senate. In 1843 he was elected to Congress, where, by successive elections, he served until 1853. During this period of service he was conspicuous and active in advocating, respectively the bill of refunding the fine imposed upon General Jackson at New Orleans in 1815, the annexation of Texas, the tariff of 1846, the war measure of Mr. Polk's administration, and a homestead bill. In 1853 he was elected Governor of Tennessee, after an exciting canvass, in which he was opposed by Gustavus A. Henry. He was re-elected in 1855, after another very active contest, his competitor being Meredith P. Gentry. At the expiration of his second term as Governor, in 1857, he was elected to the United States Senate for a full term, ending March 3, 1863. At the National Union Convention, which assembled in Baltimore on the 7th of June, 1864, he was nominated for Vice-President, and elected on the 8th of November last.—Now, in consequence of the assassination of Abraham Lincoln, Andrew Johnson is President of the United States.

IMPORTANT DECISION.—Judge Beatty, of the Nevada Supreme Court, has pronounced a decision in the case of Cox vs Smith, declaring contracts for compounding interest, illegal and void. It has become quite customary to stipulate in contracts for the payment of money, that if the interest be not paid when it becomes due, it shall be added to and become part of the principal, and draw interest as such. This decision pronounces it illegal.

INAUGURAL ADDRESS of PRESIDENT JOHNSON.

"*Gentlemen*—I must be permitted to say that I have been almost overwhelmed by the announcement of the sad event which has so recently occurred. I feel incompetent to perform the duties so important and responsible as those thrown upon me. As to the indication of any policy which may be pursued by me in the administration of the Government, I have to say that that must be left for development as the Administration progresses and *a message or declaration must be made by acts as they transpire.* The only assurance that I can now give of the future is a reference to the past course which I have taken in connection with the rebellion which must be regarded as a guarantee of the future. My past public life, which has been long and laborious, has been founded, as I in good conscience believe, upon the great principle of right which lies at the basis of all things. The best energies of my life have been spent in endeavoring to establish and perpetuate the principles of free government. I believe that the Government in passing through its present perils, will settle down upon the principles consonant with popular rights, more permanent and enduring than heretofore. I must be permitted to say, if I understand the feelings of my own heart, that I have long labored to ameliorate and elevate the condition of the great mass of the American people, and in honest advocacy of the great principles of free government. It has been my lot, and the duties have been mine—the consequences are God's.—This has been the foundation of my political faith and I feel in the end that the Government will triumph: and that those great principles will be permanently established. In conclusion, let me say that I want your encouragement and countenance. I shall rely upon you and others in carrying the Government through its present perils. I feel that in making this request it will be heartily responded to by you and all other patriots and lovers of the rights and interests of a free people."

ARRESTS AT COLUSA.—The Marysville *Appeal* of April 22nd has the following:

Company F, Captain Starr, arrived at Colusa on Thursday noon, and proceeded to make the arrest of parties who have been guilty of making exulting expressions over the assassination of President Lincoln. During Thursday afternoon Captain Starr made four arrests—District Attorney, A. D. Shepardson, Deputy Assessor C. Price, J. Scoggins, Justice of the Peace, and John Campbell, ranchman. Squads of soldiers were out during Thursday night searching for persons, but returned without bagging anybody. One party went to Princeton after a notorious traitor, but when the soldiers arrived they found the bird had flown. The four men under arrest were taken to the foot of a large oak tree and kept under guard of nine soldiers during the night. Our informant says that if these "guerrillas" got a bed that night they made it out of tall grass. Company F, on arriving at Colusa, camped within ten rods of the Court-house, the headquarters of Secession. They made the night merry singing "John Brown," etc. There were but two flags to be seen in the town when Captain Starr arrived; one of these floated over Liening's Hotel and the other over Spaulding's office, agent of the Steam Navigation Company. Our informant thought the flag would soon float over the Court-house. William Green, editor of the Colusa *Sun*, has found it convenient to be looking after his oil springs in the mountains. We understand that during the last week Lieut. Tillinghast, of Company F, in citizen's dress has been looking and searching about Colusa for the murderer Hudson, and that the parties under arrest, as well as others, made expressions of joy over Lincoln's death in his hearing. The initiatory steps seem to have been commenced by Captain Starr, by order of General Wright or General McDowell.

The *Appeal* of April 23rd adds:

The Federal army, under command of Captain Starr, seems to be progressing in its siege of Colusa. It is not improbable to suppose that the rebels on the Sacramento will be coerced about the time Grant and Sherman finish up their work on the left wing in Secessia. Four more captures were made yesterday, viz: Jonas Baer, blacksmith; M. Goodman, formerly keeper of the "Copperhead Saloon," where constitutional cocktails, Seymour smashes, habeas corpus juleps, and Vallandigham eye openers were compounded, and cigars sold "calculated to make a man wink" a Golden Circle of distress, we suppose, after drinking one of the above concoctions; O'Neil, ranchman; and Will. S. Green, editor of the Colusa *Sun*—the latter reported. The prisoners were marched to Camp Union, at Sacramento, yesterday. Flags at half-mast were plenty in the town yesterday, the traitors having found at last that we have a Government, and that the loyal people are determined it shall be no longer defied. Captain Starr had an interview on Friday with Sheriff Wright, and ordered him to raise the flag over the Court-house immediately. We understand that about two thirds of Company F, are still at Colusa hunting up the men who have been conspicuous in rejoicing over the death of our President.

SLANDER REFUTED.—It is not denied that at the time of his inauguration as Vice President, on the 4th of March, Andrew Johnson was somewhat under the influence of liquor; but it is now admitted on all sides that the circumstance was altogether exceptional, and that "Old Andy" is not at all given to the vice of drunkenness. During his Senatorial career, he was never known to be under the influence of liquor, and is too old now to commence "sowing his wild oats." The Boston *Journal* says he was quite ill before he left Tennessee, and his weakness and anxiety to reach Washington and take part in the inauguration ceremonies prompted him to resort to stimulants. During the forenoon prior to the inauguration, he was visited by several delegations, one of which actually awoke him at daylight in the morning. In his weak and exhausted condition it required but very little to affect his intellect. Johnson's most intimate friends scoff at the insinuation that it is possible for him to become a drunkard. Another journal says: "The opposition papers are fond of dwelling upon the report that the Vice President was under the influence of ardent spirits on the day of taking the oath of office. The facts seem to be that, being unwell and exhausted from the fatigues of travel, he took a quantity of spirits upon entering the Capitol, which, in his weak condition, nearly overpowered his mind. But we are glad to see that this disgrace is not without its compensations, Johnson having pledged himself to entire abstinence during the remainder of his term. He is one of the most devoted friends of the Union to be found throughout its limits, and has done and suffered too much in its cause to be hooted at for all time for a single mistake or indiscretion." No apprehension need be entertained of the sobriety of the new President. He will do his whole duty, and do it soberly and to the satisfaction of the people.—*Territorial Enterprise.*

SPIRITUAL PROPHECY.—We find the following in the Boston *Journal* of March 11th. Spiritualistic prophecies are not always correct it appears:

A Cincinnati Spiritualist has had a revelation that Mobile was to fall on the 4th instant, Sherman was to whip Joe Johnston last Thursday, and Richmond is to be taken on the 2nd of May next.

EDITORIAL CHANGE EXTRAORDINARY.—It is stated, on authority of letters from Charleston, that the *Mercury* of that city is to be immediately revived, with James Redpath, of John Brown memory, for editor. This is equivalent to a social revolution.

DUTCH FLAT ENQUIRER.

SATURDAY MORNING, APRIL 29.

Now, by St. Paul, the work goes bravely on,
The Stars and Stripes are up for Liberty,
Flag of the Nation--Talisman of the Free,
Ours'd be the hand that dares to pull thee down

REMEMBER.—On Thursday, the 4th proximo, the question will come up for the decision of the people whether they will submit to a tax for the purpose of enlarging the public school-house, or not. It has been demonstrated that the present school-room is much too small to accommodate the rapidly increasing number of children, and we are certain that our citizens will second the exertions of the present able board of School Trustees in their endeavors to furnish a comfortable place for the children to study in. They have now shown their ability for the discharge of their duties by securing the services of one of the best teachers in the county, and it only remains for the tax payers to do their duty in order that we have a school both competent as to principal as well as commodious and healthy.

HAYWARD & HALL'S CONCERT.—On Tuesday night last, our citizens were favored with a musical treat by Messrs Hall & Hayward. The latter gentleman will be remembered as the beautiful ballad-singer who accompanied Mr. Dodge in his tour through this State, and whose singing of both sentimental and comic songs enchanted the hearts of our lovers of music. Mr. Hall's exquisite playing on the bugle needs no enconium from us, as he is too well known as *the best* performer on that instrument to require any criticism. Mr. Hayward gave us as a feature of the evening. "The Beautiful Snow," a poem, and his excellent reading gave us one more proof of the versatility of this young "wandering minstrel," and we class him among the best poetic readers we ever heard.

DRAMATIC READINGS.—A rare treat is in store for the people of our town this evening at the Golden Eagle Hall. Miss Lisle Lester, whose readings have been received with such universal approbation in other portions of the State, is to favor us with a course of dramatic readings. Those who admire the poets and authors will of course embrace this opportunity of securing a treat.

NEW GOODS.—Messrs. Adler & Hudepohl are now opening a splendid assortment of fancy dry goods and gentlemen's clothing which they offer at a small advance on first prices. Those who have not supplied themselves with Spring goods would do well to give these gentlemen a call at an early day in order in order to have the advantage of selecting from a full assortment.

NEW HOTEL.—By noticing our advertising columns the reader will perceive that Mr. Herbert, of Herbert's Exchange, three miles above Dutch Flat, on the Donner Lake road, has found himself and is desirous of notifying the public, together with all travelers and teamsters that he is prepared to accommodate them with the best of beds and the most delicate viands.

W. A. SELKIRK, the *ironical*, of the *Stars and Stripes* came up on Thursday last in his official capacity as deputy Assessor United States Revenue. It is fair to presume he will endeavor to make the acquaintance of most of our people during his present stay. He's a smooth talker and will be apt to insinuate himself everywhere. Look out for him.

MAY DAY.—Our readers will please take notice that the children of the two Sabbath Schools will hold a picnic in the grove on Monday next, to which all are invited. It is expected that as many of the parents who can make it convenient will attend, and by their presence aid in the enjoyment of the juveniles.

FESTIVAL.—The Ladies' Festival takes place on next Monday evening. Every arrangement has been made to render the affair *the* feature of the season and we advise all who are partial to the good things of life to make a point to be there.

PERSONAL.—Mr. I. J. Rolfe, one of the proprietors of the Nevada *Gazette* paid us a visit last week. For a typo, Mr. Rolfe looks well, and from his conversation we gathered the impression that his paper is doing a healthy business. No one deserves prosperity more.

MINING ITEM.—Brown & Bro., at Brown's Hill, Nevada county, cleaned up on Saturday last, the 22d inst., from four and a half days' run, the nice little sum of $3,070.

THE Sanitary ball at Gold Run, on Thursday night of this week, was a complete success, You Bet, Canon Creek and Dutch Flat being well represented. A small framed picture of our lamented President was sold to Mr. Burckhalter, of this place, for $13 00; was again donated, and resold for $12 50 to Mr. Brown, of You Bet. A cake was sold to the following parties as follows: To Mr. E. B. Boust for $4 00; Mr. C. Adler, $3 00; Mr. N. D. Oaks, $3 00 and Mr. Schnable $2 50. Proceeds of sale, $37 50; net proceeds, $182 00. Want of space forbids a more extended notice at present.

A. S. BENTON, while going from his claim to is house, on the night of the 25th inst., fell, and broke his right leg, just above the ankle. He is doing well, recovering rapidly, and will doubtless be around again in a short time.

CATCHT AT IT.—A good looking Irishman, well known in our town, attempted to crawl into the window of a young lady, resident here, on Wednesday night last. He had got on the shed attached to the house, but while trying to get in at the window, was heard by a lodger in an adjoining room, who got out of bed and seized a gun, (there were two guns in the room, and one of them was loaded) but in the dark he got hold of the one that was'nt loaded) and attempted to shoot the intruder, but the gun would'nt go off, and well it was for the midnight seducer, for otherwise, he would have got a dose that would have lasted him for the remainder of his natural life, or put an end to it. Considerable fun was caused by the "diabolical" transaction.

LAST OF BOOTH.—By the *Union* of yesterday we hear the following news:

WAR DEPARTMENT, Washington, April 17th.

J Wilkes Booth and David C. Harrold were chased from a swamp in St. Mary's county, Md., to Garret's farm, near Port Royal, on the Rappahannock, by Col. Baker's force. The barn in which they took refuge was fired. Booth was shot and killed, and Harrold captured. Booth's body and Harrold are now here. STAFTON.

DUTCH FLAT, April 21, 1865.

FRIEND BOUST:—No event has occurred in the history of our nation that has so appalled the hearts of loyal citizens as the diabolical assassination of our worthy Chief Magistrate, ABRAHAM LINCOLN. The crime of his assassination casts a gloom over the minds of all good men in our nation, and causes our countenances to sadden and our hearts to bleed. No pains or tortures our minds can suggest seem adequate punishment for the fiends incarnate who plotted and consummated the terrible deed. But, Mr. Editor, great and good as was our President, damnable as was his murder, debased and polluted as are the assassins, we have in our midst those who rejoice and glory in the martyr's death; who, when informed of the facts—facts that chilled my heart and froze my blood—clapped their hands and exclaimed: "I am glad of it!" It is best for us to inform ourselves who in our community are so debased, and who are so at enmity with our country, who so lost to every feeling of humanity, christianity and shame as to sympathize with treason and its terrible results. I say it is a duty we owe ourselves, our country, and our God, for each and every loyal man and woman to know, to mark, to shun and hate every individual who either by word or action manifested any sign of joy on learning of our country's calamity, the assassination of our President: the legitimate result of the hellish conspiracy of Jeff. Davis and other traitors, aided by the Copperheads of the North. I would gladly confine my accusation of disloyalty, of sympathy with treason, and depravity of heart to men only, but there are residing in our town, *women*—I have heard of three in number—who declared they were glad that Lincoln was killed! O ye loyal men and women of Dutch Flat, as you love your country, as you regard yourselves, as you honor virtue, I conjure you to hold no converse or associate with the she-devils who thus rejoiced! Shun them as you would the vile reptile in whose filthy form a horrible and contaminating plague lurked. Detest them in your hearts, hate them in your souls, and curse them with a withering and everlasting condemnation. Let their names be mentioned coupled with contumely and disgrace, and should they intrude their presence in society let them be hissed and hooted at, and treated with all the contempt due the great moral turpitude; and when in after time the name of LINCOLN shall be respected even as the immortal WASHINGTON'S, and Peace has spread her wings over broad lands, the South subjugated to her allegiance to the laws, the last rebel has perished in the last ditch, and naught remains to mar our country's progress and glory but the detested Northern Copperhead, when the remembrance of the conspiracy and treason of Davis, Wigfall, Slidell, Mason, Stevens, Beauregard, Lee, and all that horde of traitors, shall awaken only feelings mingled with pity, let the names of those among us, whom I have described, kindle in our hearts such resentment and detestation as can never abate. The prayer and desire of all who are loyal to our country is, that the day may come when these contemptible worshippers of Davis and base admirers of Southern chivalry shall be denied even a residence on American soil. They should not be allowed to contaminate the American domain, but be driven from our land as an excrescence of depravity, pollution and detestation.

I may desire at some future time to extend my remarks on this same subject, giving the names of those whom I have referred to, but fearing that I have already intruded on your time by the length of my epistle, I close. RECORD.

[The above communication was handed in last week, but too late for publication. We now give it entire, fully endorsing the sentiments therein contained. We would suggest to the writer, however, that he has only performed a *portion* of his duty to the community in which he lives. These are times when a good citizen should not allow himself to be deterred from exposing all who in any manner sympathize with the fiends incarnate who plotted and consummated the terrible tragedy enacted on the 14th of April. Give their names, that all good honest men and women may mete out to these consolers of treason and murder the just punishment they so richly deserve.]

LETTER FROM MEXICO.

[FROM OUR OWN CORRESPONDENT.]

PRESIDIO, Mexico, March 27, 1865.

DEAR BOUST:—I wrote you last from the port, and resume my correspondence from this place. After remaining in the city two weeks, looking around at the same things day after day, seeing the marching and countermarching of troops, and listening to the different and varying accounts of persons who had been in the interior, I determined to make a break and see for myself. Accordingly, mounted on a mule team, I passed the French *garita*, and bade adieu to Mazatlan, and, as I fondly hoped, to fleas and *burros* forever. For some dirtance the road from the port passes over a low sand flat, heavy for teams to pass with full loads, and at places overflowed by the high tide of the sea. Passing this, however, it runs through a low level country, covered with the densest undergrowth I ever saw. The character of the vegetation is so different from everything in California of the kind, that I can attempt no description. Among the different growth I will, however mention the cactus. This I have seen two feet thick. Out of it the Mexicans build their fences. For this purpose it is invaluable, for it continues to grow after you have made it into a fence, and you are enabled to make a new fence every year frow the sprouts. It gives the best protection to a field placed under its charge, will last always and with the sharp prickly points given it by nature in the shape of weapons, it can defend itself against the attacks of any animal that may attempt an invasion of its dominions. Do not think now that I am joking, for it is the truth; that among the various products of this country they actually grow fences. In due time I reached the neighborhood of the Presidio, and the cotton fields began to open and spread out on either side of the road. I stopped at a number of the farms, examined the character of the land, and have since examined different parts of the valley, and I am fully prepared to say that it is the richest in the world. It extends up and down the river about forty miles, and varies in width from about twelve to twenty miles. It is perfectly level and when cleared makes the prettiest field that a person could desire to see. It is easily cleared too. The natives go into it with their chellettas (an instrument resembling a corn knife) and in a short time a hundred acres is in a condition to be burned off. This cutting down generally takes place any time before the middle or 1st of June.—about that time fire is applied and the whole burned off.—This burning kills off the weeds and undergrowth, and the first season there is but little difficulty in cultivating a crop. The natives generally do nothing more than to plant the corn or cotton with a hoe and perhaps run over it once with the same instrument. The average crops of cotton raised this year in the valley I find will be about one bale to the acre; this is not as good a yield as was expected, but anyone who knows anything about cotton knows that that is an extra average in any cotton country. This season there were some heavy rains in February, (something unusual) that had a tendency to injure all the early cotton. Other products here yield as extravagant crops as cotton. Corn produces seventy bushels to the acre and a second crop of excellent fodder from the same land. Sweet potatoes, five hundred bushels to the acre, and every thing else in proportion. Why the country is in its present undeveloped condition explains itself at once when you get among the people who inhabit it—a more miserable, lazy, degraded race cannot be found; learning nothing from the past, with no thought of the future, they live on contentedly for the present alone.

The war between the French and Mexicans, if it can be dignified by that name, still goes bravely on. In this place any day when the French are not here, you will find quite a number of drunken Coronians, who take to the brush worse than a flock of quails on the cry of "El Frances." They fire occasionally on the French when passing through the country, but beat at once, after doing so, a hasty retreat. They are in fact a perfect caricature of a soldier or even a guerrilla, and this you can see at once yourself when I tell you that there are hundreds of places in the country where they could ambush the French and kill half their number at one fire and be out of reach in the Monte (brush) before it could be returned; they are supposed to know the country well, all its by-paths and trails, and yet they permit the French to pass over any portion of it in parties from 50 to 100 and scarcely ever attempt to molest them. One company of Americans in three months could, in my opinion, destroy the entire French force outside of Mazatlan with but little loss to themselves, but these fellows here don't come of that stock. For the most of the time since I have been here the Coronians have been permitted to go on their own way, the French occasionally passing through town upon which occasion Mr. Mexican would get out of the way, but the last week there seems to be a more active campaign inaugurated against them. On several occasions they have been surprised and met with heavy loss. On yesterday evening a party of them were surprised about four miles up the river, and ten killed and all their horses and arms captured by the French. If this continues there is a prospect of the American settlers getting along quietly, and the country being rid of these robbers. If they are permitted to remain here, though there will be little prospect of raising anything this year, although the most of the better class of Mexicans have been forced to go to port for protection after being robbed by them of all they had, and they have commenced a system of taxing Americans. Every little petty officer resolves himself into a Collector, levies his own rates of taxation and collects it, and perhaps spends it himself.—The Americans thus far have managed to get along quietly with both parties and in but few instances have paid any tax. Most of them, however, I presume would give them anything in reason to keep from being troubled, but will not submit to anything exorbitant. At times I am led to pity and sympathize with the Mexicans. One naturally feels so when he hears of a people struggling for their homes against a foreign oppressor, but from the knowledge I have of the race here I believe it would benefit mankind and civilization if the last one of the race was wiped from existence.

I will write you soon again and perhaps be enabled to collect together something more than this dry letter. PLACER.

TO DEMOCRATS---THE PERIL OF DEMOCRACY.

MR. EDITOR:—Will you be so kind as to find room in your paper for a few words from one of the people?

Democracy has other perils than the one to which I now call the attention of the working men and Democrats; but the one here pointed out may be called *the* peril of democracy. And it is all the more threatening if the friends of democracy fancy themselves safe. The weary man lost in our deep midwinter snows, who has become so numbed as not to feel cold, is the man who is in the greatest danger, and unless help comes soon he will soon be a stark, cold and ghastly corpse. Or, to change the figure, we may flatter ourselves while living near some nuisance, or the infectious miasma of the small-pox quarantine, or in some malarious district, that we are safe, until we find our system undermined and that we are the victims of some fell disease. So as a nation we have breathed a malarious or infected political, and even moral, atmosphere, from a source that has well nigh corrupted the national blood and impregnated the whole system with the virus of a deadly poison.

I ask the earnest attention of Democrats to the truth intimated by these figures. I myself am a Democrat, as were all my ancestors, and so I claim the right to address Democrats. In these troublesome times the great Democratic party has become divided, and so I will go directly to the Declaration of Independence and the Constitution for the statement of the Democratic principles which I conceive to be in peril now. In doing so, I am sure every genuine Democrat will agree with me and that we shall "keep step to the music of the Union," and march on to a glorious Democratic victory, and prove to all doubters, that there is truth in the old motto, "to the victors belong the spoils." For the genuine spirit of Democracy can not be crushed out until the people are all slain and then they will leave a blighted and blackened world to become the fit abode of tyranny and ar, istocracy!

In the first place, the Declaration of Independence says, "we hold these truths to be self-evident: that all men are created equal; that they are endowed, by their Creator, with certain unalienable rights; that among these, are life, liberty, and the pursuit of happiness. That, to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed; thrt, whenever any form of government becomes destructive of these ends, it is the right of the people to alter or abolish it, and to institute a new government, laying its foundation on such principles, and organizing its powers in such form, as to them shall seem most likely to effect their safety and happiness."

That, Mr. Editor, is a long extract, I know, but it is good Democratic doctrine, and very good reading for such times as these.

Section Ninth, 7th division of the good old Constitution says, "No title of nobility shall be granted by the United States; and no person, holding any office of profit or trust under them, shall not without the consent of Congress, accept of, any present, emolument, office or title of any kind whatever, from any king, prince, or foreign state." That also is very good Democratic doctrine, nothing but the pure article, and is excellent reading for the times, for all others, as well as Democrats.

But I take another step, and declare that whatever, or whoever, opposes these doctrines opposes Democracy also; that whatever would overthrow these, would overthrow Democracy; that whatever attacks these, attacks Democracy, and therefore it is the privilege, yea, and the duty of every Democrat to resist these oppositions and defend these principles. Moreover, if these principles are overthrown in this country, then the world may bid farewell to Democracy.

But, Mr. Editor, I do not wish to fill up your paper with this subject, important as it is, and so I will write no more to-day, but will take up the subject in your next number, if you see fit to publish this. I would also request my readers to keep this article till they read my next, as I wish to refer to that. ONE OF THE PEOPLE.

Dutch Flat, April 25, 1865.

IN MEMORIAN.

The following action taken by Olive Lodge, No. 81, I. O. O. F., at their last meeting, and (Resolutions) ordered published:

Resolved, That the members of this Lodge wear the usual badge of mourning for thirty days, and that the charter of this Lodge be draped in mourning during the time. J. E. DUNNING N. G.,
W. C. Jones, Sec'y.

The following preambles and resolutions were adopted by Brooklyn Lodge, No. 46, I. O. O. F., of Red Dog, and ordered to be printed:

WHEREAS, We have assembled at this hour to take measures for the proper observance of the funeral obsequies of ABRAHAM LINCOLN, the late President of the United States, who met his death at the hands of an assassin on the 12th instant. Therefore be it

Resolved, By Brooklyn Lodge No. 46, I. O. O. F.—That we mourn the loss of ABRAHAM LINCOLN, the Chief Executive of the nation because he administered the laws with unswerving fidelity and impartial integrity during the fiery ordeal through which we have passed, never before paralleled in the history of our nation; his counsel and advice can no longer be had. We mourn also because we have lost his example before us as a man.

Resolved, That the assassination of the President of the United States meets with the condemnation of good men throughout the nation, and that a parallel of the enormities of the crime cannot be found in the annals of the history of the world, because it is not done for the overthrow of tyranny but for the subversion of the best Government on earth, and whether it has been brought about by the fatricidal act of an individual at the premeditated instigation of secret conclave who bring forth iniquity in public the plotters as well as the executioners, merit the vengeance of a righteous God.

Resolved, That we go from this place to swell the procession in performance of the last duties to the mortal remains of ABRAHAM LINCOLN.

C. H. HANMAN, Sec'y.

MEETING AT IOWA HILL.

The citizens of Iowa Hill and vicinity assembled on Main street on the 19th day of April, 1865, under a call issued for the purpose of properly observing the funeral services of our late lamented President, ABRAHAM LINCOLN. All business houses in the town were closed from 9 o'clock A. M., until 4 o'clock P. M., and the flags and buildings draped in mourning.—The procession formed at 12 M. under the Marshal of the Day, James Dodds, and Assistant Marshal, H. C. Ladd, and marched and counter-marched through Main street in the following order:

1st—Iowa Hill Brass Band;
2nd—Standard bearer;
3rd—Citizens in the following order:
1st—Gentlemen; 2nd—Gentlemen and ladies; 3d—Boys; 4th—Misses; 5th—Choir of Sacred Music. 6th—Pall-bearers, eight in number; 7th—Clergymen to the Methodist Episcopal Church. The procession numbered over three hundred.

After an appropriate prayer, and singing by the Choir, the congregation was very ably and eloquently addressed by the Rev. Mr. Wille, founding his discourse upon the 9th and 15th verses of the 13th chapter of the Prophesies of Isaiah. After the services were concluded at the Church, the Procession reformed and marched back to the flag-staff in Main street where the Flag was raised from half mast among the cheers of the multitude. Patriotic songs were sung by the Iowa Hill Glee Club, and short but patriotic speeches made by several present when the people dispersed, after appointing a Committee to write the proceedings of the day, and request the publication of the same in the DUTCH FLAT ENQUIRER and Sacramento *Union*.

HOPE FOR THE AFFLICTED.—In another part of this paper will be found the advertisement of the celebrated Institute established by Dr. J. C. YOUNG, in 1850. In this age of deceit and charlatanism it is a boon to the suffering to point out to them where they are sure of obtaining the wished for relief and cure. Under the care of the skillful Doctor the sick and troubled can divest themselves of their burdens of pain; lay aside their cross, and secure health and happiness. If you are sick or in trouble, do not hesitate. Read the advertisement and follow the advice. Do not forget the number nor the manner of directing your letter. MEDICAL CARD.—Success is said to be the criterion of merit. If this is so, Dr. Doherty is not an exception to the rule. Of the many physicians who advertise to cure the particular branches to which he has devoted his particular study, none has attained that wondrous and general practice which daily attend at his office. The great Ricord, of Paris, specially devoted his attention to the particular branch of Medicine denominated Specific and Chronic. Dr. Doherty has determined to do the same. Read his advertisement in another column, and the sworn statement of cures.

DR. CHAS. H. TOZER'S Private Medical Institute,

N. E. Corner Jackson and Kearny Streets,

SAN FRANCISCO, CAL.

Established in the city of Sacramento, in 1852 and removed to San Francisco in 1862, for the express purpose of affording an Asylum to those afflicted with Chronic and Venerial Diseases, and for the suppression of Quackery.

To the Afflicted.

DR. TOZER, IN RETURNING THANKS TO his patients and friends in the country, would most respectfully inform them that he can be found as usual at his Institute, N. E. corner Jackson and Kearny streets, devoting his time and intention particularly to the following diseases, viz: Syphilis in all its various forms, Gonorrhœa, Gleet, Strictures of the Urethra, Nocturnal Emissions, Sexual Debility, Diseases of the Bladder and Kidneys, etc., etc. From his long experience and successful practice, he can warrant a perfect cure in all of the above mentioned cases.

No deleterious drugs used in my practice. My charges are moderate, and my treatment to my patients is always honorable. The utmost secrecy observed in all cases.

SEMINAL WEAKNESS.

Should you be afflicted with any of the following symptoms, such as Weakness of the Back and Limbs, Pain in the Head, Dimness of Vision, Nervousness and General Debility, Loss of Memory, Confusion of Ideas, and Depression of Spirits, Evil Foreboding, Self-distrust and an Aversion to Society, consult Dr. Tozer at once, and he will restore you to perfect health.

TO FEMALES.

When you are afflicted with weakness of the back and limbs, headache, loss of muscular power, palpitation of the heart, irritability, nervousness extreme urinary difficulties, derangement of the monthly sickness, sterility, and other diseases peculiar to females—consult Dr. Tozer, and you will receive particular attention. Let no false delicacy prevent you, but apply at once, and save yourselves from painful sufferings and premature death.

My rooms are so arranged that there is no danger of exposure or of meeting any one except the Doctor.

TO CORRESPONDENTS.

Patients of either sex, residing in any part of the country, however distant, who may desire the opinion and advice of Dr. Tozer, can by submitting a written statement of their cases to the Doctor, receive all the attention and medicines necessary to effect a cure without the necessity of a personal interview.

All letters strictly confidential, opened and replied to by the Doctor himself.

Consultation at the office or by letter—FREE.

☞ Cures in all cases guaranteed.

HIGHLY CONCENTRATED
Compound Fluid Extract Sarsaparilla,

For purifying the blood, removing all diseases arising from excess and imprudence in life, chronic constitutional diseases arising from an impure state of the blood, and the only reliable and effectual known remedy for the cure of Scrofula, Scald Head, Salt Rheum, Pains and Swelling of the Bones Ulcerations of the Throat and Legs, Blotches, Pimples on the Face, Tetter, Erysipelas, and all scaly eruptions of the skin, and beautifying the COMPLEXION.

AND HAPPINESS

NOT A FEW

Of the worst disorders that afflict mankind arise from the corruption that accumulates in the Blood. Of all the discoveries that have been made to purge it out, none can equal in effect *HELMBOLD'S COMPOUND EXTRACT OF SARSAPARILLA.* It cleanses and renovates the Blood, instills the vigor of health into the system, and purges out the humors which make disease. It stimulates the healthy functions of the body, and expels the disorders that grow and rankle in the Blood. Such a remedy, that could be relied on, has long been sought for, and now, for the first time, the public have one on which they can depend. Our space here does not admit of certificates to show its effects, but the trial of a single bottle will show to the sick that it has virtues surpassing anything they have ever taken.

Two tablespoonsful of the Extract of Sarsaparilla, added to a pint of water, is equal to the Lisbon Diet Drink, and one bottle is equal to a gallon of the Syrup of Sarsaparilla, or the decoction as usually made.

The above Extracts are prepared on purely scientific principles—in Vacuo—and embody the full strength of the ingredients entering into their composition. Already an unconclusive test will be a comparison of their properties with those set forth in the U. S. Dispensatory.

HOW TO USE THE REMEDIES.

In Diseases of the Blood, Humors on the Face, or any and every part of the body, use Extract Sarsaparilla, applying to Pimples and all external Humors or Eruptions the Improved Rose Wash.

Use the Extract Buchu for all diseases requiring the aid of a Diuretic, except those of the Urinary Organs, such as Gonorrhœa and Gleet; in these use the Extract Buchu and Inject with the Improved Rose Wash.

☞ THESE EXTRACTS HAVE BEEN ADMITTED TO USE IN THE UNITED STATES ARMY, and also are in very general use in all the STATE HOSPITALS AND PUBLIC INSTITUTIONS throughout the land, as well as in private practice, and are considered as invaluable remedies.

AND ALL FEMALE COMPLAINTS.

CONSULTING OFFICE,

SAN FRANCISCO, : : : : : CALIFORNIA
NO CURE, NO PAY.

THIS CELEBRATED INSTITUTE has enjoyed on this coast an uninterrupted success of fourteen years, and has become one of the renowned Hospitals of the age. What the celebrated Lock Hospital is to London, and the no less renowned establishment of Ricord is to Paris, this Institute has become to the Pacific coast. The thousands annually receiving cured place it in point of number of patients among the very first of the world, and the success of its treatment ranks it second to none.

PRIVATE DISEASES IN MALES and IRREGULARITIES IN FEMALES are the great destroyers of health. They insidiously attack the system and gradually undermine and destroy it; they drive the bloom from the cheek, the lustre from the eye, the strength and vigor from the frame; they give to the world puny and diseased offspring, and poison, through successive generations the race of man. The marks can be seen in Scrofula, Consumption, Cripples, the Idiotic, the Paralytic, the Insane, etc.

There is no more terrible scourge to the human race than those diseases arising from the contamination of Venereal Poison. The mildest forms, by retreating to the blood, hold over the one afflicted, the sword of destruction that is liable at any moment to fall and blight—to utterly destroy—all earthly hopes.

MERCURY, *recognized as the most fatal medical enemy to man*, combining with the Venerial, doubles in dangers. Those who have been treated with that pernicious *mineral poison* are not cured: the disease has only assumed a new form.

Do not be satisfied with partial cures that leave the poison to crawl through the system, eating its way into the tissues and organs beneath the apparently smooth surface to burst out in the future with a virulence that will baffle the effects of medicine. WHEN PERFECT CURES can be obtained by consulting a physician who in long practice and thorough investigation into the causes of DISEASES of the URINARY ORGANS enables to determine at once the nature of the disease.

In all diseases entrusted to the Doctor's care, PERFECT SPEEDY and PERMANENT

Cures are Always Guaranteed,

In syphilis and its adjuncts; Gonnorhœa and its accompanying diseases; and all disorders of the Bladder, Kidneys and prostrate; Seminal Weakness; Diseases of the Heart and Lungs; Dyspepsia; Indigestion, Impotency; Incipient Consumption, and all diseases of the urinary organs, in either sex, cure always warranted, OR NO PAY REQUIRED at the PRIVATE

SEMINAL WEAKNESS OR SPERMATORRŒA.

The young man who experiences that growing weakness in his muscular and mental organization should stop to consider whence it arises. He will find in the weakness of the back, trembling of the limbs, disordered digestion, unaccountable failing of the powers of the mind, distaste for society, dread of impending trouble, forebodings of evil, sleeplessness, troubled and lacivious dreams accompanied by growing deafness, loss of muscular power, and numerous other symptoms of disorganization, the positive traces of the most terrible and destructive of all diseases, Seminal Weakness—wasting away his powers, destroying his hopes of life and manhood, and dragging him along the broken path of his existence toward the premature and loathsome grave. To him who finds his life dribbling out in the discharge of the vital principal of existence in nocturnal and diurnal emissions the mere cessation of its appearance brings no assurance of relief.

Marriage, that holy office, the safeguard and hope of manhood, brings to such an one no hope of cure, but adds to his misery in the knowledge that the one who looks to him for so much of her happiness, is a victim of his evil, and an innocent companion of his punishment. He adds to his misery and disorder until hope leaves him. There is no rescue except in proper and skillful treatment. Consult, then, at once, a physician whom long practice and careful research has made thoroughly conversant with every phase of the disease. Those who have become the victims of solitary vices, that dreadful, fascinating and destructive habit, which fills thousands of sick rooms with paralytics and consumptives, and hundreds of untimely graves with its misguided victims, should consult, without a moment's delay, one who will sympathize with their sufferings. To such the Doctor would especially address himself, giving to all and all assurance of a PERFECT and PERMANENT CURE, *without hindrance from business, change of diet, or fear of exposure.*

Do not forget the address, See below.

IMPORTANT TO FEMALES.

When a female is in trouble or afflicted with disease, and requires medical or surgical assistance, the inquiry should be, Where is there a physician who is fully competent to administer relief, and whose respectable standing in society recommends him to the confidence of the community? The Doctor, understanding how imperatively necessary these requirements are, feels called upon to interpose, and by the attention of the afflicted to the fact that he has been a *Professor of Obstetrics and Female Diseases* for twenty years, and is fully qualified to administer in all cases, both medically and surgically, not in a superficial manner, but in as thorough a manner as years of study and practice—both in hospitals and private families—can make, to save them from the hands of the unqualified, unscrupulous and designing. Therefore families can rely upon him as upon a father. All in affliction can find in him one who can feel and sympathize with and befriend them in trouble—one in whose secrecy and the utmost confidence can be placed. *Consultation, by letter or otherwise, Free.* See address below.

THE CELEBRATED FEMALE REMEDIES, compounded from the private prescription of Dr. Young, have now obtained a most extended popularity, and are correctly viewed to be the safest and surest remedies for the complaints for which they are applied. The constantly accruing testimonials of their efficacy declare them to be pre-eminently superior in their action. No lady should be without these Renovating Agents. None genuine unless procured at this office.

QUICK CURES AND SMALL CHARGES!

The Electropathic Institute,
645 Washington st, San Francisco.

ESTABLISHED FEBRUARY, 1860, BY AN ASSOCIATION OF SCIENTIFIC GENTLEMEN FOR CURE OF DISEASES AND THE SUPPRESSION OF QUACKERY

Truths for the Afflicted.

This splendid establishment was inaugurated in February, 1860, by an association of Scientific gentlemen, that there might be a Medical Establishment in San Francisco, where the afflicted could find scientific and honorable, as well as humane treatment. *Outrageous Quackery* had so long run rampant over afflicted humanity that all confidence was being lost in the Medical Profession, and it was time that there should be an Institute where the afflicted could apply with the certainty of honorable and Scientific treatment. And the result has thus far exceeded the most sanguine expectations of its founders.

Thousands have been made to rejoice in returned health, who had been trifled with by the numerous vampires that abound upon this coast, the chief of whom has been obliged to close out and leave the country; but still there are some left of whom the afflicted should beware.

The basis of the treatment at the Institute is the Electropathic System. The Physician and Surgeon who has been a Professor in one of the best Medical Colleges in America, and who has made a special study of Chronic Diseases for the last fifteen years, is thoroughly qualified to treat by medicine, and will warrant a perfect and permanent cure in the shortest possible time. All long-standing cases of disease no matter what may be their nature, give way under the course of treatment pursued at the Institute, and the result is perfect health and a strengthened constitution where it has been injured.

It would be useless to enumerate the diseases, as it would be occupying space to no purpose. Every nameable complaint to which humanity is liable can be cured by the Faculty at the Institute.

No mercury is used upon any consideration. All medicines prescribed are vegetable, and in cases where the patient can remain in the city, and wishes to be treated by Electricity, no medicines will be used. All medicines are electrized, which makes them much more active, and destroys all nauseo is taste, making them as palatable as wine.

The Directors wish to speak of specialities more extensively than of other complaints, because empirics have used more deception about them than they have about the regular troubles of the human family. And first on the list is that dreadful malady denominated Seminal Weakness, or Spermatorrhœa, a complaint which not only affects the body with pain and lassitude, making life a burden, but affects the brain, creating *Insanity.* It drives more men to the mad house than all other diseases added together. By the Electropathic System this terrible trouble gives way, and the hitherto emaciated victim is made to rejoice in perfect health.

Next upon the list is Venereal, in all of its terrible forms and phases.

It is impossible to paint this disease in colors sufficiently terrible to do it justice. It is the most awful disease to which the human family is liable, and if not arrested when active, making him a loathsome mass of living corruption. It is also one of the most insidious diseases in the world. While the exterior shows no symptom, the horrible disease is sapping the foundations of life, preparing to attack its vital parts, as soon as the patient shall by some indiscretion weaken the system. Reader, if you have ever had this awful disease in any form whatever, call at once at the Institute, and the physician there will examine you and tell you if you have any of the virus in your blood. In such cases consultations are always gratis, and should you have any of the dreadful complaint about you, a cure will be warranted in a short time, or no charges will be made for services.

Strictures.

This terrible affection, which badly affects the nervous system as to prevent sound and health giving sleep, should be attended to in its early stages, or an operation both painful and dangerous will have to be resorted to. It is usually first indicated by darting pains in the parts, but very light and hardly noticeable at first, increasing gradually, until they become troublesome, sometimes accompanied by slight irritations in the passage of urine. A *quick cure* is easily performed at the Institute if early application is made.

To Females.

Your delicate organizations should be treated with great scientific care. At the Institute you will find a kind physician, who can at once discover your disease or trouble, and sympatize with you in your affliction. Should you be irregular you can get relief, no matter what may be the cause. You need not fear to call on account of the delicacy of consultation for the utmost secrecy will be insured at all times, and the resident physician will treat you in the most honorable manner, giving you all the assistance and advice, both medical and surgical, that you may require. *Private apartments, especially for Ladies.*

Preventive.

Dr. J. H. Josselyn's celebrated Preventive for married ladies can be obtained only at the Institute.—Price, Ten Dollars.

Warranted to prevent pregnancy. Can be used without any inconvenience, and is good for one year if directions are followed.

This Magnetic Preventive is not injurious, but is conducive to health, and can be used without the knowledge of any one but the party using it.

To sum up, there is no place where the medical profession is practiced in the State of California, wherein the same amount of scientific attainments are employed, and, consequently, where the afflicted can be so well treated, and be as sure of a cure, as at the Electropathic Institute, 645 Washington street, (south side,) a few doors below Kearny.

Reader, if you are sick and need medical assistance call there before employing any one else, and judge for yourself. You will there find the best consulting, as well as the best operating talent in the State, together with the only Electropathic Instrument that can be depended upon in the curative process.

Medicine sent to all parts of the State, Oregon and Nevada, upon the receipt of a letter describing the case.

All letters must be directed to J. H. JOSSELYN, M. D., Resident Physician, Electropathic Institute.

Dr. H. JOSSLYN has no connection with any other establishment or Institute in this city.

PRIVATE MEDICAL AID.

Quick Cures and Moderate Charges.

DR. W. K. DOHERTY'S
Private Medical and Surgical Institute.
Sacramento Street, below Montgomery, opposite the Pacific Mail Steamship Co.'s Office. Private entrance on Leidesdorff st., San Francisco.

Established expressly to afford the afflicted sound and Scientific Medical Aid, in the treatment and cure of all Private and Chronic Diseases, cases of secrecy and all Sexual Diseases.

To the Afflicted.

DR. W. K. DOHERTY returns his sincere thanks to his numerous patients for their patronage, and would take this opportunity to remind them that he continues to consult at his Institute for the cure of chronic diseases of the Lungs, Liver, Kidneys, Digestive and Genito-Urinary Organs, and all private diseases, viz: Syphilis in all its forms and stages, Seminal Weakness, and all the horrid consequences of self-abuse, Gonorrhœa, Gleet, Strictures, Nocturnal and Diurnal Emissions, Sexual Debility, Diseases of the Back and Loins, Inflammation of the Bladder and Kidneys, etc., etc., and he hopes that his long experience and successful practice of many years in Europe and the United States, he is enabled to apply the most efficient and successful remedies against diseases of all kinds. He uses no mercury, charges moderate, treats his patients in a correct and honorable way, has references from men of known respectability and high standing in society. All parties consulting him, by letter or otherwise, will receive the best and gentlest treatment and implicit secrecy.

READ THE FOLLOWING:

Dr. Doherty—Dear Sir: I feel my health so fully restored, that in common gratitude, I believe I should make you some written acknowledgment for your valuable services—particularly so as your fee was small for the work performed.

I arrived in this city from the East about one year ago, and was then suffering from an old case of Gleet, complicated with Stricture. Being a stranger in this city, and believing those Doctors who gave such positive assurances of success were necessarily the best, (some of whom have a large number of titles), I placed myself in their charge and continued under their treatment until I had lost nearly all hope and a considerable sum of money.

I wish to say now that you are the sixth Doctor I have employed, and the only one that has ever done me any service. My Gleet is wholly cured, the Stricture is all removed, and my general health is better than it has been for years.

In conclusion I would say to the many unfortunates who require medical advice, if you have any doubt as to whom you may employ, ask Dr. Doherty for my address and call and see me. (I keep store in this city.) My experience may save you many dollars.

I would also add that in the early stage of my disease, I used a large amount of the preparations advertised as an infallible cure for Gonorrhœa, Gleet, etc., but never derived any benefit from them.

I am, Doctor, very truly yours,
L—— H——.

SEMINAL WEAKNESS—A SWORN-TO CERTIFICATE OF MOST REMARKABLE CURE OF SPERMATORRHŒA.

A desire to benefit humanity, and a feeling of gratitude to Dr. W. K. Doherty, alone induces me to make this statement. For many years I have been afflicted with that fearful disease known as "Spermatorrhœa," or Seminal Weakness, the result of self-abuse, but till 1855 experienced but little trouble or inconvenience. In that year, however, I had Seminal weakness to an alarming extent, which was soon followed by the usual alarming symptoms, as weakness of the back and limbs, pain in the head, dimness of vision, nervousness and general debility. My mind, too, was afflicted to such an extent as to seriously impair my memory; my ideas were confused and spirits depressed. I was averse to society, had evil forebodings and self-distrust, and was entirely unfitted for any of the duties of life. From 1855 to the summer of 1862, I employed the very best medical talent I could find, and spent several hundred dollars, but in no instance obtained more than temporary relief. I had about concluded there was no relief for me in this world, but seeing Dr. Doherty's advertisement, I thought I would call and see him, as he charged nothing for consultation. I had an interview with Dr. Doherty at his office, in Sacramento street, and his fee for treatment was so reasonable, I determined to try him, though I did not expect much benefit from his treatment. On the 5th of December last I placed myself under his care; in one week I found myself very much improved, and now, after five weeks' treatment, I feel myself thoroughly cured of all my troubles and in the enjoyment of the best health. Hoping that my experience may be of benefit to others similarly afflicted, I subscribe myself JAMES JOHNSTON.

Subscribed and sworn to before me, this 15th day of January, A. D. 1864.

To Females.

When a female is in trouble, or afflicted with disease, as weakness of the back and limbs, pain in the head, dimness of sight, loss of muscular power, palpitation of the heart, irritability, nervousness, extreme urinary difficulties, derangement of digestive functions, general debility, vaginities, all diseases of the womb, hysteria, sterility, and all other diseases peculiar to females, they should go or write at once to the celebrated female doctor, W. K. Doherty, at his Medical Institute, and consult him about their troubles and disease. The Doctor is effecting more cures than any other Physician in the State of California. Let no false delicacy prevent you, but apply immediately and save yourself from painful sufferings and premature death. All Married Ladies, whose delicate health or other circumstances prevent an increase in their families, should write or call at Dr. W. K. Dougherty's Medical Institute, and they will receive every possible relief and help. The Doctor's offices are so arranged that he can be consulted without fear of observation.

To Correspondents.

Patients residing in any part of the State, however distant, who may desire the opinion and advice of Dr. Doherty on their respective cases, and who think proper to submit a written statement of such, in preference to holding a personal interview, are respectfully assured that their communications will be held most sacred. Dr. Doherty takes this opportunity of observing, that all letters are only opened and replied to by himself, and the latter as promptly as possible.

If the case be fully and candidly described, the usual fee of ten dollars enclosed, (by express or in a registered letter) personal communication will be superseded, as instructions for diet, regimen, and the general treatment of the case itself (including the remedies), will be forwarded without delay, and in such a manner as to convey no purport of the letter or parcel so transmitted.

☞ Consultation at the office FREE. By letter, $10. Permanent cure guaranteed, or no pay. Address, W. K. DOHERTY, M. D.,
mh18 3m San Francisco, California.
